

LABSIDE compatibility list

Our libraries are compatible with CAD software : **Exocad®**, **3Shape** and **CARES Visual / Straumann Nova**.
The model creator is included in all libraries associated with DT and MDT digital transfers.

The labside libraries for **Exocad®**, **3Shape** can be downloaded from www.anthogyr.com section : [DIGITAL / LABSIDE](#)
The labside libraries for **CARES Visual / Straumann Nova** are automatically installed within the integrated update.
For **Dental Wings®** (lifetime license), please contact the Straumann Group support in your country.

Before any installation:

- . Uninstall previous versions of libraries
- . Identify the CAD software and its version
- . Identify the range of components

Labside CAD-CAM Ranges			Workflow for digital impression with IOS (Intra-Oral Scanner)				Workflow for conventional impression		Exocad®				3Shape® Dental System
